1. The disclosure is objected to because of the following informalities: figure 3 is not set forth in the Brief Description of the Drawings on page 5.

Appropriate correction is required.

- 2. Claims 16 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Said "measuring plate" in claims 16 and 17 lack antecedent basis in claims 9-12.
- 3. Claims 9-17 are allowable over the art of record which do not show such a living body measuring apparatus with built-in-weight meter as claimed by applicant and argued by applicant in the response of May 31, 2002.
- 4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
